

do i have recessive genes....
are they in any part of my medical records.
are they unwatched or unmonitored.
just how far can a gene go during recess.
are recessive genes ever reported as missing.
does the recessive gene pool have a shallow end.
do they like hanging around unmanned lifeguard towers.
can you swim in a recessive gene pool that is unchlorinated.
can your recessive genes tread water until they are gratified.
do they respond to first responders responding in unexpected ways.
do recessive genes seek out domination partners with playtime toys.
do crocodiles wait in the recessive gene pool for wildebeests to cross.
are recessive genes prone to experimental lifestyles outside of the lab.
are recessive genes the genes that were miscarried in an unfortunate reincarnation.
are recessive genes comforted when they share their stories with undesirable mutations.

the carrier.

the affected.

the unaffected.

god gambles and we are the outcome.

do i have recessive genes.
