

how do you construct simplification.

it seems to resist our efforts

with its complications.

is the more of i evolution.

is the less of i extinction.

some might tell you the less of i is more

believing that purity is

distillation dancing at the

edge of the event horizon.

i get confused about all the choices of less.

how do you order them.

how do you know when you have enough of the less.

the mystics with those wandering eyes

and never at home answers say

strange days these days of simplification.

i like to think i have a plan...

for every mud brick i put in place

as i build my house

i take two out.

it does seem to have a penitential quality

but contrition never quite occurs

since the suddenly not built

appears not built

and the ache of simplifying goes away

with this method of construction.

how do you construct simplification.
