

after breakfast

a walk outside dedicated

to the destruction of evil rocks

the ones that cut through to slaughter for sacrifices

grind down the skeletal structure

scrape off identifying features

puncture with no exit strategy

flay human skin for ritual costumes

butcher the body into piecework puzzles

pound existence into an emulsified pooling

peel away sentimental pleadings layer by layer

scrape the inside meat attached to hides.

grudge rocks

judgement rocks

extinction rocks

mutilation rocks

sporting rocks

hunting rocks

weapons and tools.

rocks that terrify

pointed

bladed

rounded

sharpened

chipped

flaked.

rocks painted with the evil eye

rocks with luciferian painted faces

rocks inscribed with death messages for the victims.

perhaps you are thinking

how will i know which ones are the evil ones

no long education needed for this one...

i will look and see whose hands they are in.

destroying evil rocks.
